SEA MIST

This 2 story, 4 bedroom, 3 bath 1666 sq. ft. cottage is truly one of my best designs. It offers many opportunities for watching the ocean from its panoramic view. Whether lounging on the deck, reading on the covered rear porch, or sipping a cup of coffee in the great room / dining room, you're in a room with a view. Spotlight features include a ground level bad weather entry and storage room, A large master suite, laundry room, rear covered porch, Two large decks. A private beach crossover, and a lower level covered sitting area are optional.
